

ROBOTICS PROGRAM AT CALVIN CHRISTIAN SCHOOL

We are excited to arrange another robotics program for our students. We will need a minimum of 10 students to run this program. The response to this registration form will determine how we move forward.

We will be working with LEGO Mindstorm kits. These kits contain software and hardware to create customizable, programmable robots.

Here is what we are thinking:

- the program is for grades 1-8 students, but with priority given to grades 6-8 and to those on the waiting list; please note that final enrolment decision rests with the principal
- Mr. Wensink will be the program coordinator and instructor; you can contact him for more information about the program and the kits at nwensink@ccshamilton.ca
- a session represents one class period per week for 12 weeks (Oct - Dec; Feb - April) and a class period is 3:45 – 5:00 p.m.
- the actual day scheduled for each class period will be **Tuesdays**
- the fee is \$130/student/session; \$110/student will be refunded if the parent cancels prior to the session; there will be no refund after the session has begun
- Upon the completion of the session and at the discretion of the program coordinator and principal, up to a \$360 kit replacement fee will be charged if there are pieces missing or broken from the kits.
- whether students work individually or as a team, each student will be required to rent a kit
- students can re-register for any session; we will provide returning students with more advanced activities
- students will be given an opportunity to present their achievements and participate in competitions
- students must be picked up on time after the session or they will be placed in the After School Care program at the parents' expense
